Conference Reports

ASTM fourth symposium on composite materials: fatigue and fracture 400
European composite forum 1991 470
Flow processes in composite materials '91 402
Fourth European conference on composite materials (ECCM 4) 151
FRC '90: 4th international conference on fibre reinforced composites 63
Sixth international conference on composite structures (ICCS/6) 467

Research Reports

Quantitative microstructural analysis of a continuous fibre composite
D. Green and F.J. Guild 239
Surface characterization of carbon fibres
J.B. Donnet and G. Guilpain 59

Titles

Titles are listed alphabetically, ignoring definite and indefinite articles

Anodic oxidation of pitch-precursor carbon fibres in ammonium sulphate solutions: the effect of fibre surface treatment on composite mechanical properties
T.R. King, D.F. Adams and D.A. Buttry 380
Bounds on effective fracture toughness of multiphase materials
K.V. Raveendran, A.P. Verma and C.V.S.K. Rao 290
Chemical structures at the Nextel fibre/polyimide matrix interface detected by photoacoustic FTIR spectroscopy
W.F. McDonald and M.W. Urban 307
Comparative studies on sliding wear of polyimide composites
U.S. Tewari and J. Bijwe 204
Continuum damage mechanics applied to cyclic behaviour of a glass fibre composite pultrusion
S.M. Jessen and A. Plumtree 181
Correlation between attenuation and strain in cross-plied GRP composites under tensile loading
V.K. Srivastava and N.K. Das Talukder 295
Determination of the weighting function g (β_i, r, v_f) for fibre orientation analysis of short fibre-reinforced composites
B. Möginger and P. Eyerer 394
Development of standards for advanced polymer-matrix composites
G.D. Sims 267
The distribution of tin in a carbon fibre-reinforced copper-matrix composite
G. Yongxue 463
Effect of fibre volume on tensile properties of real unidirectional fibre-reinforced composites
G.N. Karam 84
Effects of distilled water and saline solution on the interlaminar shear strength of an aramid/epoxy composite
J.R.M. d'Almeida 448
Effects of low frequency vibration processing on carbon/epoxy laminates
S.R. Ghiorse and R.M. Jurta 3
Electrically conducting powder filled polyimidesiloxane
L. Li and D.D.L. Chung 211
Electromagnetic interference shielding by carbon fibre-filled polychloroprene rubber composites
P.B. Jana, A.K. Mallick and S.K. De 451
Elevated temperature mechanical behaviour of an ultrahigh carbon steel/brass laminated composite
H.C. Tsai, J. Wolfenstine and O.D. Sherby 373
Experimental investigation of the effects of temperature on the dynamic properties of a carbon fibre-reinforced plate
B.J. Dobson and R. Drew 199
An experimental study on the elastodynamic behaviour of fibre-reinforced cement
M. Sayir, F. Pfäffli and M. Partl 9
Factors affecting the friction coefficients between metallic washers and composite surfaces
P.D. Herrington and M. Sabbaghian 418
Factors affecting the stability of non-wetting dispersoid suspensions in metallic melts
G. Ramani, R.M. Pillai, B.C. Pai and T.R. Ramamohan 143
Fatigue behaviour of carbon fibre-reinforced aluminium laminates
C.T. Lin, P.W. Kao and F.S. Yang 135
Fibre/matrix interface failure controlled by a critical energy criterion
P. Marshall and J. Price 445
Fibre/matrix interface property determination
P. Marshall and J. Price 53
Flexural fatigue of carbon fibre-reinforced PEEK laminates
M. Buggy and G. Dillon 191
Fractography of multidirectional CFRP composites tested statically
L. Shikhmanter, B. Cina and I. Eldror 437
Fracture toughness behaviour of a magnesium alloy metal-matrix composite produced by the infiltration technique
K. Purazrang, K.U. Kainer and B.L. Mordike 456
Generation of thermal strains in carbon fibre-reinforced bismaleimide (PMR-15) composites. Part 1: The determination of thermal strains in cross-ply laminates
M. Simpson, P.M. Jacobs and F.R. Jones 89
Generation of thermal strains in carbon fibre-reinforced bismaleimide (PMR-15) composites. Part 2: The effect of volatiles
P.M. Jacobs, M. Simpson and F.R. Jones 99
Generation of thermal strains in carbon fibre-reinforced bismaleimide (PMR-15) composites. Part 3: A simultaneous thermogravimetric mass spectral study of residual volatiles and thermal

microcracking
M. Simpson, P.M. Jacobs and F.R. Jones 105
Hole–hole interaction in carbon fibre/epoxy laminates under uniaxial compression
C. Soutis, N.A. Fleck and P.T. Curtis 31
The impact resistance of composite materials—a review
W.J. Cantwell and J. Morton 347
An improved engineering test method for measurement of the compressive strength of unidirectional carbon fibre composites
P.T. Curtis, J. Gates and C.G. Molyneux 363
Joining and repair of a carbon fibre-reinforced thermoplastic
P. Davies, W.J. Cantwell, P.-Y. Jar, P.-E. Bourban, V. Zysman and H.H. Kausch 425
Loading rate effect as a function of the span-to-depth ratio in three-point bend testing of unidirectional pultruded composites
R. Boukhill, P. Hubert and R. Gauvin 39
Low temperature curing epoxies for elevated temperature composites
H. Dodiuk, S. Kenig and I. Liran 319
Measurement of the dynamic moduli and Poisson's ratios of a transversely isotropic fibre-reinforced plastic
D.J. Mead and R.J. Joannides 15
Measuring and predicting the durability of bonded carbon fibre/epoxy composite joints
S.J. John, A.J. Kinloch and F.L. Matthews 121
Mechanical behaviour of woven glass fibre-reinforced composites under impact compression load
A.M.A. El-Habak 129
A micromechanical approach to the viscoelasticity of unidirectional hybrid composites
L.E. Govaert, E.L.J.C.J. d'Hooghe and A.A.J.M. Peijs 113
Microstructural characterization of injection moulded composites using image analysis
S. Toll and P.-O. Andersson 298
Morphological investigations of injection moulded fibre-reinforced thermoplastic polymers
B. Möginger, U. Müller and P. Eyerer 432
The optimum support of horizontal pressure vessels made from reinforced plastic
L. Varga 227
Relationship between strength variability and size effect in unidirectional carbon fibre/epoxy
M.R. Wisnom 47
Resilient composite of silicone and foamed tin as a new material for electrical and thermal contacts
M. Zhu and D.D.L. Chung 219
Static and fatigue tests of a woven glass fabric composite under biaxial tension–torsion loading
S. Amijima, T. Fujii and M. Hamaguchi 281
Strong bending in the DCB interlaminar test of thin, E-glass woven-fabric-reinforced laminates
S.L. Bazhenov 275
Topography of carbon fibre surfaces
P. Marshall and J. Price 388
The use of resin hybrids to control moisture absorption in fibre-reinforced plastics
T.A. Collings 369
